Summary

- ★ Versatile IT professional with expertise in Graphic Design, Frontend Development, and Python–Django Full Stack Development. Skilled in crafting modern UI/UX, building responsive web interfaces, and developing scalable backend systems. Proficient in React, Python, Django, and Adobe tools, with a strong focus on quality, usability, and clean execution.

Work Experience

- **Dynamotech It Firm Solutions - Full Stack Developer**
(Jul, 2026 - Present) - Kuala Selangor, Malaysia

Design, develop, and maintain full-stack web applications using React, WordPress, Python, Django, REST APIs, and SQL. Handle system development, database integration, testing, optimization, and deployment with a focus on performance, security, and scalability.

- **Mahnaz Food Sdn Bhd - System Analyst**
(Jul, 2024- Mar, 2025) - Shah Alam, Selangor, Malaysia

Managed and maintained enterprise systems including EMS, CMS, and SMS while supporting IT operations. Focused on system analysis, automation, optimization, and scalability to improve operational efficiency and reliability.

Featured Project

- **SocialConnect**

React.js

Tailwind CSS

Django Rest Framework

MySQL

Bootstrap

SocialConnect is a social media platform enabling users to create and share posts, engage with live content, and interact through a point system. As the frontend developer, I focused on delivering a smooth and responsive user experience.

Challenges:

- Integrated a secure user verification system.
- Developed real-time content features and profile image uploads.

Outcome:

A highly interactive and user-friendly platform, praised for its seamless functionality and smooth user interface.

- **CreativeCanva**

Adobe Illustrator

Canva

CreativeCanvas is a graphic design project focused on developing a unique brand identity for a startup. I designed logos, color schemes, and marketing materials to ensure consistency across digital and print.

Career Objective

- ★ To secure a versatile and growth-driven position where I can leverage my skills in Graphic Design, Frontend Development, and Python–Django Full Stack Development. I aim to create impactful visual assets, develop responsive and scalable digital solutions, and contribute user-focused innovations that drive long-term organizational success.

- **Sunway Group Sdn Bhd - Graphic Designer**
(April, 2025 - Jun, 2026) - Kuala Selangor, Malaysia

Created digital and marketing materials, including social media graphics, promotional content, branding assets, and visual layouts, while maintaining consistent and high-quality design standards.

- **Creative IT Institute - Web Developer Intern**
(July, 2023 - Jun, 2024) - Dhaka ,Bangladesh

Assisted in developing responsive websites and web applications using HTML, CSS, JavaScript, and WordPress. Supported frontend development, debugging, optimization, and user-friendly interface implementation.
